

Refreshes and relaxes

*Goodbye
tensions,
feel zen*

Magic turnaround effect

45th North Latitude Refreshing Gel

Asian lotus - North American Witch Hazel - Balkan Horse chestnut

Always keep it in your pocket so as to relieve the tensed and tired zones at each stop over. Fresh and relaxing effects are guaranteed.

The relaxing lotus, the decongestant witch hazel and horse chestnut, come from around the world but grow under the same 45th parallel North. Together they create an ideal treatment to ease temporary aches (heavy legs, numbed neck zone...) which is due to the uncomfortable positions of some means of transportation.

A turnaround effect takes place once the gel is applied: the gel-texture melts on the skin and transforms into an invisible film which disappears as though by magic.

*Energiser Roll-on
Icy*

Eye polar contour

Siberian ginseng

Your best friend of the long hauls for refreshing the complexion. The roll-on smoothes over the dark circles and the puffiness under the eyes while promoting the micro-circulation thanks to the combined activity of the Siberian ginseng, the Eyeliss® and the metal ball which enhances the formula efficiency through smoothing movements. A soft focus agent brightens up the complexion which now looks fresh and rested.

Apply under the eye contour with repeated smoothing movements. The product easily penetrates but do not hesitate to smooth it with the finger if required.
