

# Transparent peel-off mask

a so surprising transparent appearance

Second skin effect  
NEW

## Deep-skin moisturizer

During the mixing process, the grains of sugar are crusting under the spatula so as to create an outstanding soft and fresh treatment; the glucose hydrates the skin by re-balancing the hydrolipidic film, the skin has a silky touch after the application.

The mask it creates unveils an absolute smooth and stretch texture, making it then easier to peel-off in one whole piece. The peel-off mask offers a comfort feeling all through the setting time thanks to both natural fresh effect and tensing one.

## Let's play on the visual effect given by the transparency

It's during the application that this new formula reveals its pure transparency. The skin and nothing but the skin is put on the front line through an impressive "second skin effect".

If the transparency is so trendy, it allows the creation of innovative beauty masks with some amazing visual effects: while adding plants pieces, gold, silver or copper-coloured flakes...cereals, fresh herbs, coloured spices, grains of sand,...the transparency allows to play on colours contrasts and to give the mask another personality according to your brand identity.

Many creation possibilities will be available, and your future treatments will be fully personalised.

Dose: 50g of powder and 40mL of water.

Pour all the water at once on the powder, stir quickly and vigorously during one minute to get a homogeneous paste. Apply the paste immediately on the face. The mask sets in 6 minutes following the application. Leave the mask to perform its function at least 15 minutes.

Remove it by peeling off in one whole piece.

Use before: 29 months. Avoid heat, light and humidity.
